HOUSE OF MOTHER'S AGENDA

Soma, Seigneur de Délice et d'Immortalité

Rig Veda IX 83

1. Au loin étendu pour toi est le filtre de ta purification, ô Brahmanaspati,
Maître de l'âme;
*te manifestant dans la créature tu cours tout au long de ses membres ;
mais qui n'est pas mûr et dont le corps n'a pas subi la chaleur du feu
ne goûte pas ce délice ;
seul peut l'endurer et pleinement enjoyer qui a été cuit à la flamme.*
2. Au loin étendu au siège du ciel est le filtre de purification de ce Vin brûlant,
aux fils de pure lumière partout déployés ;
*ses extases rapides nourrissent l'âme du purifiant ;
elles gravissent avec lui à travers le cœur conscient jusqu'au plus haut du
Ciel.*
3. Le Suprême, le Taureau pommelé, il fait resplendir les aurores ;
le Mâle, le chercheur de plénitude, il porte les mondes du devenir ;
les Maîtres de Maya (ou : possesseurs de la connaissance formative)
ont tout formé (ou : ont fait une forme de lui) par le pouvoir de sa Maya ;
les Pères à la vision divine l'ont établi en nous comme un Enfant à naître.
4. Le Gandharva, il garde son vrai siège ;
le Transcendant-et-Admirable, il protège les naissances des dieux ;
Seigneur de l'ordre intérieur, dans cet ordre intérieur il saisit l'ennemi ;
ceux qui sont tout à fait parfaits dans leurs œuvres goûtent à l'enjoiment
de sa douceur de miel.
5. Ô Maître de l'offrande, tu es l'offrande et tu es le large, le divin séjour ;
revêtu de la robe de l'éther du ciel tu embrasses le pèlerinage-du-sacrifice ;
Roi, sur le char de ton filtre tu gravis dans la plénitude ;
avec tes milliers d'énergies ardentes tu conquiers la vaste Connaissance
(ou : la Connaissance, le Vaste).

(Pavitra)

HOUSE OF MOTHER'S AGENDA

Soma, Lord of Delight and Immortality

Rig Veda IX.83

1. Wide spread out for thee is the sieve of thy purifying, O Master of the soul; becoming in the creature thou pervadest his members all through. He tastes not that delight who is unripe and whose body has not suffered in the heat of the fire; they alone are able to bear that and enjoy it who have been prepared by the flame.

2. The strainer through which the heat of him is purified is spread out in the seat of Heaven; its threads shine out and stand extended. His swift ecstasies foster the soul that purifies him; he ascends to the high level of Heaven by the conscious heart.

3. This is the supreme dappled Bull that makes the Dawns to shine out, the Male that bears the worlds of the becoming and seeks the plenitude; the Fathers who had the forming knowledge made a form of him by that power of knowledge which is his; strong in vision they set him within as a child to be born.

4. As the Gandharva he guards his true seat; as the supreme and wonderful One he keeps the births of the gods; Lord of the inner setting, by the inner setting he seizes the enemy. Those who are utterly perfected in works taste the enjoyment of his honey-sweetness.

5. O Thou in whom is the food, thou art that divine food, thou art the vast, the divine home; wearing heaven as a robe thou encompassed the march of the sacrifice. King with the sieve of thy purifying for thy chariot thou ascendest to the plenitude; with thy thousand burning brilliances thou conquerest the vast knowledge.

**C I N E M A - Bharat Nivas - AUDITORIUM
FRIDAY 24 MAY - 7.30 PM**

(Film show starting at 7.45 sharp)

LA DISCRÈTE (THE DISCREET)

Directed by Christian VINCENT - France, 1990

With: Fabrice Luchini, Judith Henry, Maurice Garrel

Synopsis: On the rebound from a failed relationship, Antoine, a young writer, accepts the proposal of Costa, his would-be publisher: to seduce the first girl he meets and to relate the affair in a diary to be published. But the trapper will be caught in his own trap ... Original French version, with English subtitles
- Duration: 1h35' - 35mm film - Colour

VENDREDI 24 MAI - 19h.30

(le film commence à 19h.45 précises)

LA DISCRÈTE

Réalisé par Christian VINCENT - France, 1990

Avec : Fabrice Luchini, Judith Henry, Maurice Garrel

Synopsis: Par dépit amoureux, Antoine, jeune écrivain, accepte la proposition de Costa, son futur éditeur : séduire la première fille venue et en relater l'intrigue amoureuse dans un journal intime qui sera publié. Antoine entend ainsi se venger des femmes ... (Version originale française avec sous-titres en Anglais - Couleur - 1h35')

JEUDI 23

20H00 – A l'attaque. Une comédie française de

Robert Guédiguian. Avec les acteurs favoris du réalisateur : Ariane Ascaride, Jean-Pierre Darroussin et Gérard Meylan. Durée : 1 h 30.

Deux amis scénaristes aux caractères antagonistes font le pari d'écrire un film politique. Les difficultés sont grandes ; les pièges abondent. Leurs errements, querelles, réconciliations viendront sans cesse se mêler à l'histoire exemplaire du garage "Moliterno & Cie". Gigi et Jean-Do réparent des voitures que Lola fait ensuite briller pendant que Marthe établit les factures. Le grand-père apprend au bébé des chansons révolutionnaires italiennes pendant que Vanessa et Mouloud vendent des fleurs et des oursins sur les marchés. Toute la famille sue sang et eau, douze heures par jour, sept jours sur sept pour survivre en ces temps de chômage. Mais mondialisation oblige... une multinationale menace ce radeau de la méduse. Nos héros vont prendre les armes et, soutenus par toute la population, triompher comme il se doit dans les contes de l'Estaque.

JEUDI 30

20H00 – YAMAKASI, LES SAMOURAÏS DES TEMPS MODERNES. Une comédie française de

Luc Besson (2000). Avec Chau Belle Dinh, Williams Belle, Malik Diouf, Yann H'Nautra, Guylain N'Guba Boyeke... Durée : 1 h 30.

Ils sont sept. Ce sont les Yamakasi. Ils ont créé un nouveau sport de rue et essaient de conquérir la cité, plus exactement ses murs, ses toits, ses ponts. Légers, agiles, rapides, ils bondissent d'un immeuble à l'autre, glissent sur les parois et bravent tous les dangers. Pour ne pas perturber la vie du quartier, ils s'entraînent très tôt, au petit matin. Mais certains habitants paniquent, les prenant pour des voleurs. Les jeunes les admirent et voudraient les imiter. Mais un jour, c'est l'accident. Le petit Djamel tombe. Il faut de l'argent pour l'opérer rapidement...

7 Jahre in Tibet (US 1997 120min.)

Brad Pitt, David Thewlis, B.D. Wong
Reg.: Jean-Jaques Annaud

Die wahre Geschichte des österreichischen Bergsteigers Heinrich Harrer, der 1939 seine schwangere Frau im Vorkriegs-Europa verlässt, um mit einer deutschen Expedition ins Himalaya zu gehen. Dort wird die gesamte Crew von Engländern gefangengenommen und in ein Lager gesteckt. Nach abenteuerlichem Ausbruch und Odyssee durch eisige Bergwelten landet Harrer in Tibet. Dort lernt er den jungen Dalai Lama kennen und eine innige Freundschaft entsteht. Nach 7 lehrreichen Jahren für beide von ihnen verlässt Heinrich Harrer das mystische Land, um endlich sein eigenes Leben zu leben.

Dear Readers,

The Working Committee is still demanding us to vacate our office rooms, but:

the Library will be open as usual:

Monday - Saturday 9.00 - 12.30

Monday, Wednesday, Friday 14.30 - 16.30

until further notice.

The Library Team

EXODUS

- all those part-time yogis...

Contrary to the flying rumours that 800 or even 1300 folks are leaving Auroville this summer, the Residents Service now provided us with the proper figures:

As of May 8th, 259 Aurovilians have left.

Calculated up to the beginning of June, **there are 72 more going to leave.**

So in total the lofty figure is **331, three hundred and thirty one** Aurovilians out of station!

Enjoy!

Puls@

Should Roger Anger have the final say in all matters regarding the MM building and MM Gardens?

Results

Yes : 21% (30 Votes)

No : 73% (105 Votes)

I don't know : 6% (9 Votes)

Total number of votes : 144

Total number of comments: 33

Results along with the comments have been sent to WC, Matrimandir and Roger.

The next question

Some people say that the situation at Matrimandir would improve if Divakar left. Do you think Divakar should be asked to leave?'

Thank you,

Pulse team - pulse@auroville.org.in

ENGLISH TUTOR

Charles, a native English speaker who will be in AV as a guest for a few months, offers to give individual classes to whoever wants to improve their English.

A minimum knowledge of English is required.

Tamil Aurovilians are particularly welcome,

as Charles would like to pick up some Tamil words.

Charles can be contacted at the Center Guest House.

Slide Show on 'Paintings of India'

by Kathryn Myers,
Fulbright Lecturer /Artist (University of Connecticut, USA)

Sri Aurobindo Auditorium, B.N.

Saturday 18th May '02, 7 pm

LATEST NEWS FROM THE TRAVEL SHOP

The Yield committee of all Airlines having flights from and too India has decided to end all super discount schemes from 1st April onwards. Since they are strictly controlling violations it is unlikely that new schemes are coming up soon.

Jet Airways is offering a 35% discount on the USD fare to foreigners visiting India for business, when their air fare is paid by the Indian companies. This discount is given on both Business and Economy class till 31st October 2002. Passenger availing this discounted fare ticket must complete their entire journey on or before 31st October 2002. Some documentation to avail this discount is needed.

NCC Telephone Office

Our Public Call Office (PCO) at New Creation Corner will have shorter opening hours during the time that the NCC is closed, which is from Mon 20th to Sun 25th. Opening hours will be temporarily from 9:00 to 18:00.

Telephone Service

NEW CREATION CORNER members will be going on a tour from 20th May (Monday) to 24th may (Friday).

Therefore NCC, restaurant will be open only for Lunch from 12.00 pm to 2.30 pm .

DINNER WILL BE CLOSED.

Thanking you
NCC team.

La Ferme - Yoghurt

Contrary to sterilized yoghurt, our Farm yoghurt is made with live bacterial culture and without preservatives. This way of preparing guarantees all the advantages for your health and is most beneficial for digestion.

Given the circumstances of the hot season, we want to inform you that – though we do our utmost best – it is hardly possible for us to maintain a steady quality for our mother cultures. The yoghurt starts to develop bacteria at an incredible fast rate and it may ferment within a few days – sometimes hours – after manufacture. Although we do check the quality of each batch we deliver, we advise you to purchase only as much curd as you may consume in a short time and not to carry the curd around for a long time before putting it into your fridge.

**Thank you,
La Ferme Cheese.**

Experience in patenting

I am looking for somebody who have experience in patenting in India and international.

Its urgent ,I am leaving in 2 weeks.

Hans ,Silence

Innovation unlimited

I am looking for someone interested in a house exchange. I live in a apartment in Arati.

Anyone interested in sharing a taxi to Madras Airport on monday the 20th at 15.00?

Please Phone - 622 615.

SCHOLARSHIP FUND

The Auroville Scholarship Fund was been created several years ago to help Auroville students between the age of 17-24 years who want to pursue courses of higher study that are not presently available in Auroville.

It is sponsored by Aurovilians who support it with their donations. The assistance is available in two forms: one, outright grants mostly for tuition and exam fees, and loans, repayable over a period that is negotiated with the individual student according to his/her situation.

Only those students who are actually in need of financial assistance can apply for these grants and loans. Application forms(for those who are applying for the first time) and re-application forms(for those who are in the middle of courses and require further assistance) can be gotten from Jothi(Aspiration) or Suzie(Aurogreen). Kindly submit your requests by the end of this month.

If you would like to help this ongoing project and need more information, speak to any one of us, or make donations directly to the account established for this purpose (#0352).

Scholarship Fund Group
(Jocelyne,Jothi,Suzie)

AUROVILLE BASKETBALL CLUBS

(Affiliated to Pondicherry Basketball Association)

ALL INDIA INVITATION BASKETBALL TOURNAMENT

For Men and Women from 30th May to 2nd June-2002

Dear Friends,

We, Auroville Basketball clubs will conduct an all India Basketball invitation tournament in the months of May-June 2002. This will be a major event in basketball in Auroville. We will be inviting teams from Pondicherry, Tami Nadu, Kerala, Karnataka, Chatishgarh and hopefully from Punjab as well. The teams invited to take part in this event will be having the best players in the country, both in the men and women sections, who have represented India in the international events abroad. Amongst the events of this magnitude and nature in basketball in our country, only this tournament boasts of having women teams participating side by side with men's. The program will last four days and we have tremendous task of having to transport, accommodate, feed and encourage the men and women participating by rewarding prizes to the best four teams. With the hope of you lightening our financial burden (P.T. A/C 2353 Aspiration Sport), we would like to thank you in advance for your generosity and help.

Auroville Basketball Clubs.

Video Library

The Two video cassettes of Gregg Braden "Awakening to zero point" and "Walking between the worlds" are now available at the video library in Pitanga.

Dear music Lovers,

The classes for "Indian Classical Music' both in vocal an violin will be taught by Mr. Kirupa, Professional musician. Those who have already knowledge in other instruments (except percussion) can also join and improve. The age should be above 10 years.

The venue and timings of the classes will be informed later. A small contribution is appreciated, If you are interested, please sign up and write your name, address/community and telephone number on the notices displayed at Solar Kitchen, Pour Tous and New Creation Corner.

Repair Services at Mahasaraswati free/exchange store fully operative

The Mahasaraswati free-store/exchange-store has successfully started a full fledged repair service, with Logu from Aspiration as the technician. Anything from wristwatches to cassette players and fridges and other household equipment and gadgets can be brought to the free store, to get it repaired or get an advice and estimate on the possibility of repair.

The exchange service can now also take in account the values of certain items in good working condition, so that exchange without money can take place, in case one feels items are too valuable to just give them away.

Under this scheme we can already offer:

- a brand-new Moulinex mixer/grinder/juicer/slicer
- rain boots (size 39 or Indian size 6)
- a 1000 watt clothes iron
- an ergonomic PC key-board
- a Singer electrical oven (1500 Watt)
- an electric kettle
- a Philips electric travel coffee maker
- a few table lamps - two ceramic kerosene lamps
- Sony earphone for walkman
- two ladies' watches
- an two way audio speaker
- underground telephone cable, 80 meter 20-pair
- big size steel Almira
- immersion heater 1000 watt.

The store, next to Kuilapalayam Post Office, is open on Saturday from 15.00 to 17.00 o'clock.

**For further information call:
Olivier at: 622212**

Connections**Can you find the activity that will give you what you want out of life?:****□ A Maths and Physics teacher**

The Last School needs a teacher of Maths and Physics. Besides knowledge of the subject, someone who has an affinity for youth 13 to 20 will make the job fun for both teacher and learner. The timings are flexible. Please discuss details with Jean, Deepti or Jean-Yves at 622195, or email lastschool@auro...

□ Eatery Manager

A personable, energetic and well-organised person is needed to manage a restaurant. Responsibilities are to maintain a warm and welcoming atmosphere, especially the physical environment; maintain good relations with and among the personnel; organise and oversee the tasks needed to run the entire restaurant with special concern for strict hygiene; supervise the purchasing, deliveries and billing of the goods. This is a job for someone who really likes to run their own show. There would also be the pleasure of creating a most pleasant eating place. If this is the kind of person you are, please contact Connections (62-3440)

□ Solar Kitchen Technician (Urgent)

Solar Kitchen is looking for a competent technician to operate and maintain, with the help of two assistants, its technical installations: solar bowl, diesel-fired boiler, diesel generators, LPG burners, various kitchen equipment & machinery, electrical and water systems. Sense of responsibility and team spirit are indispensable. Please contact: Angelika, Valery and Gilles G. at Solar Kitchen Ph: 62-2197 of mail to: solarkitchen@auro...

□ An Inventor

Innovation Unlimited is longing for a partner who would work with Hans in production of his present creations (LED flashlight and the 'Zapper') as well as in the development of new and useful inventions. The partner should have skills and experience in electronic and mechanical assembly (soldering ; nuts and bolts etc) Helping with order-taking, sales and etc. is also desired.

The right partner is a creative partner.

If interested, please contact Hans directly; 622 779 or email: siddha@...

□ Au Pair in Germany

Through an old-time Aurovilian, we have learned that there may be opportunities for young girls to work for one year in Germany as au pair. The nature of the work (perhaps helping with children and light household work) and working conditions are to be

discussed. If you are interested in such a commitment, please contact Jaya. (622074; nicojaya@aurov...)

□ The Earthy Needs of the Auroville Building Centre

.1.)Unit Secretary: The work will include: correspondence, recording books and management of the library, giving information on the earth construction and activities of the centre, managing the boarding of the training centre and various small office works. It is important to have skill in computers having mastered several computer programs. Fluent English and a basis of Tamil are also essential.

2.) Assistant for training courses and research: The work will include preparation of the training courses, assistance to conduct them and after some time conducting classes, as well as taking care of conducting and organising research on earth techniques.

For more information please contact Satprem Maïni or Ayyappan at CSR:

Phone 623 064 / 623 330; Email: avbc-earthunit@....

Connections will be open during the month of May on Monday, Wednesday and Friday morning from 9.00am till 12.00 am and on appointment.

The **□** **□**team

Paulien, Don and Jaya

SAWCHU Building,

Tel.: 623440, email: connections@auroville.org.in

Biophilia

"You cannot serve god and wealth" (Luke,16:13)

Usually the specialists use a term, greek origin, "biophilia" as "instinct to live". What about mankind, does it have this instinct? People often say: "be healthy and wealthy!" – in the industrial world, where there is mania for money and no place for god.

In Auroville bioregion, I investigated some communities with a strong biophilia. *Oecophylla smaragdina* or weaver ant (Tamil name is Mossaadu) lives in the crown of cashew near vikas – the neem spray trial plot. Close to Aranya, it creates communities on lemon trees (Ashram garden, pavitra from orissa showed them to me). In Aranya this ant feels especially comfortable in the crown of a young mango tree.

The ants mainly feed insects including local pests. They don't use money, fans and aircondition in their opinion, moneyphilia and tehnophilia are equal to necrophilia-instinct to die.

Boris

What a Joy - NO MORE PLASTIC

In all Indian newspapers (local and nationwide), on all TV-stations, in the Internet it was published:

The State Government of Tamil Nadu introduced a law initiative to ban all kinds of harmful plastics in their sale, storage, use and even transport. A committee was formed to see how to implement it.

A worldwide welcome followed - except, of course, from the plastic industry and some opposing parties.

Anyway, whatever will come out in the end: The initiative is super! - And we in A.V. have still the chance to give an example!

Each unit, which wants to change now, is heartily invited to contact me. I might have a practical solution. At least I have enough literature about the harmfulness of plastics in our environment and for our health.

Here follows the article printed in
THE HINDU (8.5.02) on its front page.

Njal - Phone: 622 234

TAMIL NADU/LAW FOR PROTECTING PUBLIC HEALTH - Ban on sale and use of plastics
By R.K. Radhakrishnan

CHENNAI, MAY 7. After banning cigarette smoking in public and sale of "pan masala", the State Government is now set to prevent use of all non-biodegradable plastics. A Bill seeking to ban sale, storage, transport and use of all non-recyclable plastics was introduced in the Assembly today. The Bill does not go into scientific details; on the micron thickness which is generally used as a distinguishing factor, separating the reusable kind from the non-reusable genre, but merely explains what it considers non-biodegradable. This in view of the "urgent need legislation to protect public health." Violators caught selling, storing or transporting non-biodegradable plastic will have to pay a fine ranging from Rs. 5.000 to 25.000 while users will be punished with a fine between Rs. 100 and 500.

Selling, storing, distributing or transporting any magazine or periodical packed in plastic wrapper could attract a fine between Rs. 1000 and 5.000. Once the measure takes effect, "no owner or person in charge of any food establishment shall use or permit the use of any plastic article".

Contravention will attract a fine between Rs. 5.000 and 50.000. If caught again, an additional fine will be levied, and it "may extend to Rs. 10.000 for every day during which such contravention continues, after conviction for the first contravention".

The Forest and Environment Minister, P. Mohan, introduced the Tamil Nadu Plastic Articles (Prohibition of Sale, Storage, Transport and Use) Bill 2002.

The senior TMC leader, S.R. Balasubramaniam, and the CJP leader who won on DMK symbol, B. Renganathan, said they were opposing the Bill at the introduction stage itself.

The statement of objects and reasons notes: "There is a rapid increase in the use of plastic articles, particularly of non-reusable carrybag, cup, tumbler, plate, spoon, fork, straw, string, cord, sheet, mat and such articles made of or containing plastic, particularly in retail shops, hotels including residential hotels, restaurants, canteens, marriage halls, eating houses and other places where food is prepared, served or supplied for consumption.

Plastic is non-biodegradable. The aforesaid, non-reusable plastic articles are thrown away after one time use. This causes a significant environment risk and health hazards."

Dear applicants..

1. About photocopy: The people who ever got the Indian driving licence from us, can come and give to us the photocopy of the licence. It is for our service report. Please bring it.

2. About renewal of LLR (form 3): We would like to know, those who's LLR (form 3) is expired or which is going to be expire. Those people can contact us, for the renewal of LLR.

3. About driving test: Now, we are doing the driving test, three applicant by a week. One for MCWOG (motor cycle without gear) and two for MCWG (motor cycle with gear). If you are in urgent (like going out of station) can give the message to us, to do your driving test before.

4. To all new comers and aurovillians: Those who ever have their national driving licence can come to us to transfer it to Indian driving licence. You will get back your national licence. Those who didn't have their national driving licence, can come to us to apply for an Indian licence. This is compulsory to all, to have an Indian driving licence while you are in India. The International driving licence is valid only for 3 months in India.

5. You need Passport size photo ?: Don't forget. We have a Polaroid Camera for your emergency passport size photo. (4 Photos > 35/35 mm each = 75 rs ... in less than 3' 30 s. ... on the site) No need to go to Pondy... see you soon!

6. About Change of Ownership in Pondy. Most of the people in Auroville didn't have their bike in their own name. This causes a problem in the future. So, contact us as soon as possible to change the ownership of the vehicle into your name.

Thank you.

Wazo, Ashok and Raju (For Av Vehicle service)

Phone-623 302 E-Mail— vvehicle@auroville.org.in

TRACE ELEMENTS AND THE NON-PHARMACEUTICAL HEALTH CARE.

Non-Pharmaceutical Health Care is an academic research group conducting research within the best scientific standards of modern mainstream medicine. The name Non-Pharmaceutical Health Care refers to an approach to health care, which emphasizes the importance of providing optimal conditions for body cells to maintain their life processes. As a consequence, optimal body health is maintained and the need to use pharmaceutical substances is decreased. ¹

This approach, which gives real meaning to the concept of health care and preventive medicine, is the very purpose of water dynamisation: **to reinforce the immune system and allow the body to protect itself against outside aggressions.**

The Violet process used in Aqua Dyn is based on the transfer of subtle energy to the water, by means of electrodes, usually metallic. During the process of dynamisation, trace elements are transferred to the water in form of energy: the energy of the metal involved. When dynamisation is neutralised with the contact of metal for instance, the metal manifests itself in its ionic form and can be characterised analytically.

The transmission of trace elements to water opens the door to the enthralling field of colloids and metallic traces in water. The introduction into the organism of a trace element in its organic or energetic form does not raise any problem of assimilation. Modern biology teaches us that the transmission of the information in the DNA is performed by metallic endings and that the vibratory energy of the metal transmitted to the medium generates the same results as the metal (ions) itself.

Usually these “therapeutic” waters are best known in Auroville under the name of “germanium” water, being this metal notorious for reinforcing the immune system. We have had many enquiries to produce therapeutic waters energised with a variety of electrodes, in order to perform specific healing functions. Presently more than 20 Aurovillians are interested in having specific electrodes for their home dynamiser. To those who are interested in the purchase of one or more of the following metals, let

us know during the next ten days, since we are about to make a global order.

Let us recall some of the virtues of the most current trace elements which are recommended for specific dynamisations :

- ♦ Carbon : immune system reinforcement, indispensable to catalyse the intracellular exchanges, liver problems, dynamisation of beverages.
- ♦ Chromium : eyes, sugar assimilation, hair revitalization.
- ♦ Copper : anti-inflammatory, kidney troubles.
- ♦ Gold : heart diseases, high blood pressure, blood.
- ♦ Iron : anaemia, anorexia, growth.
- ♦ Magnesium : neuro-muscular regulator, senility, osteoporosis, stones, reinforcement of the immune system.
- ♦ Manganese : asthma, eczema, rheumatism, glandular stimulant.
- ♦ Nickel : nervous disorders, cephalgia, cirrhosis, sugar assimilation.
- ♦ Silicon : nervous system balance, tissues regeneration, ageing.
- ♦ Selenium : anti-oxidant, malnutrition, immune system reinforcement.
- ♦ Silver : anti-toxic, anti-infectious, pneumonia, anaemia.
- ♦ Tin : eliminates the toxins.
- ♦ Titanium : for cosmetic products.
- ♦ Zinc : insomnia, endocrinal problems, skin diseases, glands regulation, depression, breast and prostate cancer prevention.
- ♦ Germanium : cancer, immune system. Germanium is a particularly interesting element. It is the preferred electrode, for the treatment of cancer.

When other trace elements are needed, which are not readily available in a metallic or metalloid form, trace elements available in pharmacy can be used in the water, which has been dynamised, or prior to dynamisation with a carbon electrode.

It is the case of Ca, P, I, Li, which are incorporated to the dynamised water already containing trace elements like Cu, Ag, Ni, Mn or to a water to be specially dynamised with carbon.

We are at your disposal for more information.

Aqua Dyn Research Centre

¹ More information on can be gathered at webside “Non-Pharmaceutical Health Care and Unique Water.”

Dear Aurovilians, Newcomers and Friends,

As many of you know, in March 2000 the construction of phase one of a Secondary School Campus was begun. A library, computer lab and various science labs are the central facilities crucial for a further development of secondary education so these facilities were given a priority in this first phase.

The building is now coming close to the finishing stage. Right now the final grills are being put on the windows, and then we will be able to put the flooring. Those of you who saw the original plans will notice some changes and adaptation of space.

A core group of people has been meeting regularly to not only follow the construction of the campus, but also discuss the type of education we would like to offer the Aurovilian young people and share ideas on how to implement these ideas.

We would now like to share some of our ideas with you and we invite your feedback. We are also in the process of trying to find a name for the school; we will let you know when the right one comes.

If anyone would like any more information, or would like to visit the campus, please feel free to contact any one of us.

Love,

Chali, Anton, Sergei, Bunty, Lyle, Sanjeev, Mary

Aim

Inspired by Sri Aurobindo and the Mother, the overall vision of the Auroville High School is to develop educational environments in which Aurovilian students reach their own unique potential through a balanced development of body, mind, emotion, and spirit. Underlying this integral approach is the development of faculties that will allow our students to pursue the unfolding of their inner truth in harmony with the material world.

Interwoven with this endeavor toward individual development is a collective aspiration toward human unity. Toward this, we aim for our students to realize that we are one, and to appreciate and respect the truth behind our diverse cultural, ethnic, and individual heritage. Our deepest aspiration is to prepare our children and ourselves to live in a higher consciousness to manifest a truer and higher life on earth.

Objectives

- Provide a student-centered, integral education for Aurovilian youth between the ages of 14 and 20.
- Develop and offer educational programs that emphasize quality, practical skills, group dynamics, and awareness of all the planes of the being (physical, emotional, mental, and spiritual).
- Maintain the international character of AV.

- Uphold the ideals of Auroville as set forth in its charter.
- Encourage students to adopt a value-oriented approach to life in which they have an understanding of personal, community, and global responsibility.
- Teach students how to set and reach challenging goals.
- Encourage students to become self-motivated, self-aware, and self-controlled.
- Create opportunities for the continued growth of students.
- Expose students to new experiences and different approaches to learning and understanding.
- Provide educational programs that open a wide range of opportunities for students upon graduation.
- Conduct educational research related to values, integral development, and human unity.

Program

- The high school should offer a wide curriculum to meet individual aims and interests.
- Students should be required to take some introductory course on topics that they may not know.
- A minimum course load is required. Full-time students only will be accepted.
- General graduation requirements will be determined as the High School develops.
- The program should interface with the AV community through assistance with community projects or apprenticeships.
- A mentor program will be developed.
- An internal community will be established, possibly with shared school management.
- Increase students' responsibilities as they mature and progress.
- Offer the possibility to pass external exams, if students desire.

The program will be built around a core of required subject areas that will include:

- ☐ Mathematics ☐ English (language and literature)
- ☐ Languages (French, Tamil and others)
- ☐ Auroville Studies ☐ Sciences
- ☐ Social Sciences ☐ Physical Education
- ☐ Fine Arts ☐ Current events
- ☐ Computer studies ☐ Senior project

These required areas will be spread out through the 4-5 years that the student is studying, leaving ample time for electives.

Student Body

The Auroville High School will accept students from Aurovilian and Newcomer parents. As Auroville is an international community the high school will maintain an international character, bringing together students from different cultural and ethnic backgrounds in an atmosphere of protected freedom and harmony.

Report on meetings held at Solar Kitchen regarding wastewater –treatment and drinking water (notes: Angelika and Isha)

1. Meeting 09.05.02. at Solar Kitchen present: (Angelika, Gilles, Isha and Milan), IDC (Joseba nad Govind), economy group (pala), water harvest (Gilles B. and marguerita), WC (Jill)

The waste water – system of the solar kitchen has to be improved but funds are not yet found. The main question was: who is going to pay?

Reg: well water situation

Gilles B. mentioned that since the beginning of the kindergarden (1988) it's water showed irregularly E-coli bacterias. Because of this Gilles B., Marguerita and Jaseba proposed to pour chlorine (4,5ltrs) into the well.

After that meeting Angelika and Isha had some doubts concerning the chlorination of the well and they asked the consultancy of Jean-Francois (chemical ingenieur of Aqua dyn with 15 years of international experience in waste water treatment and drinking water management) and Igor (Aurobrindavan laboratory).

2. meeting 10.05.02. present: solar kitchen (Angelika, Gilles and Isha) Igor and Jean-Francois

After reporting about the first meeting Jean-Francois is willing to cooperate with Gilles B. Concerning the waste water treatment of the SK by sharing his competence in this field.

About the improvement of the drinking water in Kindergarden and Deepanam Jean-Francois is ready to install filters in the coming weeks (funds available). Concerning the well water situation Igor assured us that there exists only one test directly done from the well which was good.

Both disagreed to put chlorine into the well as we don't know what will happen with the underground water. It will be an unnecessary pollution for the environment as the source of the irregular contamination with E-coli bacterias in Kindergarden and Deepanam is still unknown. So it was decided to test directly the well water for which a valve will be installed immediately by the solar kitchen.

A follow up will come in the news as soon as we have the results.

Dear Community,

This information is regarding Reve II and its management. To avoid confusion we can tell you that there will be no change at all for the clients. As you came already to know from Inge and Dominic, that they left IDC, please be aware that they left now finally also Reve II management (Dominic will continue his work as architect but not longer be part of the management).

It will make no change in the project, but there will be a change of persons who are managing the project and who you can contact further on. The two project holders - Housing Service and Interim Development Council - will provide other members who are already involved to finalize the second phase.

For further information feel free to contact Housing Service 622-658 or IDC 622-056.

Warm regards

Interim Development Council

Building Applications are waiting two weeks for feedback:

1. Addi, extension (temporary) of the actual keet-house, Acceptance
2. Auroville Press, Storeroom, Auromodel

To: Auroville Electricial Service

Congradulations

Considering the scope of the problem, you people did a fantastic job restoring electricity to Auroville so fast

Thank you

Francis

Dear Community,

I am looking to purchase six casurina poles. I need them to be at least 20cm in dia. and at least 5m in length. Anyone who could assist me in locating the above please telephone me at 622-360.

Thank you, Francis
